

Draft Mission for Front Page with Donation Button

At the WAFA Foundation, we believe everyone deserves access to high-quality, compassionate healthcare. We provide free, essential health services to underserved communities, ensuring no one is denied care due to financial constraints. With your support, we can transform lives and build healthier, stronger communities.

Draft Announcement

We are proud to announce that construction of WAFA Hospital has officially begun in Rahim Yar Khan, Pakistan. With the generous support of family and community, we have secured the land, obtained the necessary permits, and started building the 20,000 square foot hospital.

This marks an important milestone in our mission to provide free, high-quality healthcare to underserved communities. Your continued support is essential to help us complete construction and bring critical medical services to those who need them most.

As the project progresses, we will share updates and announce a call for international healthcare volunteers once construction is complete.

Our Planned Services

Primary Care

Providing free primary care services to improve access for underserved communities, including specialized care for women and children.

Educational Workshops

Empowering individuals and families with education on healthy living, communicable disease prevention, and cancer awareness through community workshops and public outreach.

Mental Health Services

Supporting emotional, social, and mental well-being through education, awareness, and compassionate psychiatric care.
